EXIT DIRECTIONS

- When you get to the bottom of the driveway to exit you will see a mirror across the street.
- The mirror is a large rectangle. Ignore the round mirror.
- To line up with the mirror there is an orange line on the driveway. Line up your car on the orange line.
- You will see the traffic coming from the left in the mirror. If you don't see any cars you have a lot of time to turn.
- If there is a lot of traffic, please know there is a traffic signal 1 mile away and eventually there will be a good break.
- When you have clearance from the left, check right. When you have clearance both ways you can go.
